

Wrinkles and What Causes Them

CHICAGO, March 27, 1907.

Dear Sir— I desire to fulfill my promise to you, which was made last October, namely, that if you would improve my complexion by removing crow's-feet, wrinkles and discolored complexion, I would give you my photograph and testimonial.

The enclosed picture, which was taken last Fall, shows my condition at that time. The enclosed picture, taken February 25th, shows my condition at the present time. I desire to state that you have not only removed the wrinkles and crow's-feet, but have put my skin in a first-class youthful condition, of which I am very proud. The fact is that my complexion is the envy of my friends, and I cannot say too much for your course of treatment for beautifying women. You certainly do all you claim and your remedies are perfection. I recommend them to my friends.

Mrs. Orr When She Commenced Treatment.

Mrs. Orr After Course Treatment.

Trusting this letter will fulfill my promise to you and be all that you require, I remain,

Yours very truly,

Mrs. Thelma Orr.

Hotel Wychmere, 18th and Indiana Avenue.

"Wrinkles," the little word that causes a studder to every woman and most men, are caused more by carelessness and neglect than by years. We all know the young person who makes creases by lifting the eyebrows and by smiling so continuously, also the person who frowns and squints, and the one who from ill health and poorly nourished skin shows the lines crossing the face in every direction. Such people may all take heart, because by the use of E. Burnham's wonderful skin food such lines may and surely will be obliterated.

It is unnecessary to day for any one to carry these telltale marks.

A course of treatment as arranged by E. Burnham will positively remove wrinkles, fill out the sunken cheeks, remove pimples and blackheads, and restore any face to its youthful contour and complexion. These treatments with the different articles are illustrated and explained in a little booklet which is published by E. BURNHAM, which makes it so plain that any lady can use these toilet articles with equally good success in the privacy of her own home as if she had visited Burnham's Beautifying Parlors or taken a course of treatment in this great establishment.

DIME NOVELS RESPONSIBLE

Causes Trouble in Dennig Homestead.

HOUSEWORK NEGLECTED

While Wife Reads Novels of the Worst Type.

County Auditor Makes His Monthly Report to the Commissioners—Court News.

Dime novels made matrimony a failure for Adolph and Edith Dennig, according to the story which Dennig relates in a petition for divorce filed in the court of common pleas, Thursday.

Dennig says that his wife refused to keep the house in order but would spend her time reading novels of the worst possible type. Mrs. Dennig, according to her husband's claims, would not cook, wash or mend for him. He says that he has always been a dutiful husband and has provided well for his wife. Through his attorney, H. E. Hill, he says that he and Mrs. Dennig were married August 18, 1905.

County Auditor Allen has completed his monthly financial statement and submitted it to the county commissioners. Following is a summary of the report:

Balances in treasury, November 1, \$106,427.23; overdrafts, November 1, \$4,456.10; balance December 1, \$104,140.39; balance less overdrafts, December 1, \$97,076.58; receipts during November, \$11,694.36; disbursements during November, \$18,498.91.

In the suit of Henry Selter against the Marion Manufacturing company, and others, J. H. Harpold, of Cottageville, West Virginia, has filed his answer and cross petition. He admits all of the facts of the petition and claims that there is due him from the Marion Manufacturing company stockholders, \$112.50.

RAILROAD HAPPENINGS

Several Officials Visit in the City.

ERIE STARTED TROUBLE

Rate War Now on Between Chicago and New York.

Schedule of the Twentieth Century Flyer on the New York Central Pleases the Officials of the Road.

The Erie railroad started a lot of trouble when it introduced a rate of \$10 between Chicago and New York. Following this cut a similar slash in rates was made by the Grand Trunk lines which since the first of the month has been routing through passengers from the terminal at Buffalo to New York over the Lehigh Valley. A few days after the grand trunk announcement the Wabash gained permission from the interstate commerce commission to put a \$10 rate into effect between the two cities.

Now information has leaked out that there are "inside workings" that has caused a war between the Soo line and the trunk lines on this side of the border. The feeling is said to have been brought about by the New York Central in an attempt to confine the area affected by the rate cut.

It is very probable that the New York Central's Twentieth Century limited train will continue its schedule of eighteen hours between New York and Chicago. It was reported that the time would be lengthened to 19 1/2 hours but it seems as though the majority of the officials of the road are too proud of the speedy train to give their consent to decreasing the time. The train is the fastest in the world.

Coming today the eight-hour law for railroad telegraphers went into effect with the Pennsylvania. At the local office a third-trick man was employed and hereafter the employees of that office will only be on duty eight hours per day. Lloyd Welsh is working in the capacity of first-trick man, P. S. Morvory, second trick and L. A. Avery, third trick.

Mr. H. Searl, traveling auditor of the Big Four with headquarters at Cleveland was looking after business in local railroad circles today.

Clyde Hill, traveling passenger agent of the Santa Fe, with headquarters at Cincinnati was in the city yesterday evening looking after the interests of his road.

Hocking Valley passenger train No. 22 was forty minutes late this morning caused by a delay in leaving the Toledo yards.

L. F. Cochran, trainmaster of the Sandusky division of the Pennsylvania with headquarters at Columbus was looking after business in the city today.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
